In summary, we exceeded our predicted revenues by nearly \$20K with increased player registration, an increase in our charged fees, and increased sponsorship but overspent our budget by nearly \$18K on all-stars, equipment, fields, and events. Our operations resulted in a positive income of \$11K of which \$7K was invested in improving the Carnarvon batting cage with a turf floor.

On the revenue side, 551 players were registered for 2013, an increase of 10% from last year. We increased our fees (for example, Majors fees were increased \$10 to \$160) in anticipation of the new \$2/hour field user fees from the Vancouver Parks Board. For the first year, we charged a \$100 fee to players selected to our 9/10 and 11/12 all-star teams. Sponsorship revenue was up again this year and we now have 25 community business sponsors.

We overspent our budget on equipment, fields, all-stars, and events. Extra equipment was purchased due to coaches not returning equipment until after inventory showed that we needed more. The field's budget was exceeded due to the implementation of \$2/hr. user fees by the Parks Board. New all-star uniforms were purchased which will last for many years. Adding the Mariners road trip added to the events expenses and revenues were lower than expected but overall the events were seen as very successful.

For our 2014 budget, I would assume that our registration revenues will remain constant. I would continue to budget conservatively with our unreturned volunteer deposits because, ideally, we want more people to volunteer.

Sponsorships are on the rise, but I would stay conservative with our sponsorship revenue budget because it is a lot of work to drive in the money and keep our sponsors happy.

My proposed budget for expenses is listed in the table below. I propose that we add an events budget of \$5K. The purpose of our events is to build a sense of community amongst baseball families. We don't need to make back all of our expenses. I propose to reign in equipment spending; equipment stocks should be adequate even if we have a slight increase in registered players. The Allstars budget should be held for next year if we reign in spending on SWAG a bit, due to the new Allstars uniforms on hand. Fields budget increased due to user fees of \$6K. We can continue to push for more adult volunteer ump's to further reduce umpire costs. All other budgets remain at the same level as the previous year.

Capital Spending: I propose to pursue a larger scoreboard for Carnarvon with pitch count display. We can reuse our existing scoreboard at the Jericho diamond.

In conclusion, I would submit the following proposal for ratification at the next board meeting:
